

martini glass

- 1½ ounces Sagatiba Pura Cachaça
- ½ ounce Luxardo Maraschino liqueur
- ½ ounce lime juice
- ½ ounce simple syrup
- ½ ounce fresh pink grapefruit juice

Shake ingredients with ice. Strain into martini glass.

Note: At Science of Cocktails, Hemingway Daiquiris are being frozen in liquid nitrogen, causing the alcohol to freeze completely. Adding sticks creates ice pops with all the kick of a regular cocktail.

HEMINGWAY DAIQUIRI

Tom Mich : Sagatiba

Doug Williams : Liquid Alchemy
